Fourth mobility of the project, which is Short-term exchanges of groups of pupils, took place at our partner school "OOU JOAKIM KRCHOVSKI Kriva Palanka / NORTH MACEDONIA" between 11<sup>th</sup> - 15<sup>th</sup> November, 2019. Two teachers and six students from each partner school joined this mobility. The IT teachers and other teachers and students of the host country organized some events during which students formed groups and worked on different coding activities. They prepared and presented their projects to each other and teachers. They also introduced Microbit Coding System which is similar to Scratch.

- With Scratch, you can program your own interactive stories, games and animations - and share your creation with others in the online community.
- Scratch helps young people learn to think creatively, reason systematically and work collaboratively - essential skills for life in the 21<sup>st</sup> century.
- Workshops...
